Program

Today we were treated to a talk about wellness and what a chiropractor can do to help you live your best life. **Dr. Mike Vorozilchak, Finger Lakes Family Chiropractic and Wellness**, shared some success stories of patients he has helped. He explained the prevalence of mobile devices and the effect it has on your spine. Dr. Mike explained how regular chiropractic care can lead to better sleep, more energy, better posture, reduced pain and a better range of motion. Interact Report

Interact minutes for 4/24/18

Our international project this year will be hurricane relief in Puerto Rico as they are still impacted every day since hurricane Maria. Our local project will be split between the Backpack program and Thrive to Survive. We are unsure at how much money will go to each but will be finalized next meeting.

This Thursday is the service above self dinner where Jack Harris and Sydney Mittiga will be receiving an award.

In the meeting three weeks from now the officers for next year will be announced so if you would like to nominate yourself or another please email Susie.

On May 30th the Interactors will be running the Rotary lunch. We must come up with a schedule so please begin to come up with ideas for our next meeting. In past years there have been abroad presentations, a mastermind's competition, musical instruments and the robot from robotics club.

Our next meeting will be Tuesday May 1st.

Four way test:

"Of the things we think, say or do:"

- 1. *Is it The Truth?***
- 2. *Is it Fair to All Concerned?***
- 3. *Will it Build Goodwill and Better Friendships?***
- 4. *Will it be beneficial for All Concerned?***
