Program

Today we welcomed former Interact President, **Mark Rokow**. Mark attends American University, where he studies International Relations and Economics. When Mark left Geneva for college, he was disappointed to learn that American University didn't have a Rotoract Club. Mark remedied that situation by starting a Rotoract club himself. The first year, they had about 15 members and now in its second year, they boast about 100 members!

Through his Rotoract club, Mark got involved in the RYLA North American Conference. The conference is an excellent opportunity to learn about each other and the clubs that are represented there. Mark was presenting today on the hope that our club may sponsor a student to attend the next conference.

Mark is thankful to have had the opportunities he has had through our Rotary club, Interact and Rotoract. Thank you all so much for your support!
