PROGRAM

Our program today was led by **Bo Wright, Superintendent of Geneva City Schools, and his staff.**

Their mission: to educate and graduate all students with the essential skills and knowledge to live lives of consequence.

This vision plan is Geneva’s guide for the next five years—a living framework that replaces our traditional strategic plan. It brings together the elements that define who we are and where we’re going: our mission, core values, district priorities, Profile of a Graduate, and Continuous Improvement Cycle. Each section connects to the others, creating a complete picture of how Geneva supports students, staff, and families in pursuit of growth and opportunity. Designed to be both practical and enduring, this plan outlines the beliefs and systems that guide our daily work while allowing space for reflection and renewal. It represents

a shared commitment to continuous improvement—anchored in purpose, grounded in community, and driven by the belief that every student can thrive.
